Kennedy Road Reconstruction

December 8, 2017

Camborne, ON – Kennedy Road Reconstruction

Kennedy Road from Burnham Street to Jamieson Road had been identified as a high priority for reconstruction. Due to the estimated high cost of this project it was, in previous years, submitted for infrastructure funding programs; however the Township had been unsuccessful in receiving funding for the project.

In early 2017, potential revenue sources were identified that could be applied to this project which allowed it to be tendered for construction this year. The tender was awarded to Behan Construction Ltd in the amount of \$1,730,351.13 plus HST. The work on Kennedy Road was started in late July.

The reconstruction involved full road excavation and installation of curb and gutter from Burnham Street to approximately 1.1 km north of Burnham Street. The remaining 0.7 km to Jamieson Road continues to have open ditches. Storm sewers, a paved boulevard and an extension to the Camborne Drinking Water System were constructed from the creek near the Camborne Public School to the end of the curb and gutter. As a result of the construction the road was closed to through traffic for several months. Also, access to individual properties was affected temporarily as work progressed.

The Township is grateful for the cooperation and patience of all users of Kennedy Road during the construction. The road is now fully open to traffic.

This project is nearing completion with only minor restoration and clean up remaining. We are confident that the reconstructed roadway will be an improvement appreciated by all users of Kennedy Road.
